**PRELIMINARY AMENDMENT UNDER 37 C.F.R. § 1.182**
Serial No. 09/372,898

AMENDMENT TO DRAWINGS

The applicant submits a new Fig. 6 to correct the misspelling of "download" as "download" in element 600 of the drawing.

The applicant submits that Fig. 4 includes the elements of (a) reading preference information (405) and gathering content from content providers (410). These elements are further described as including search terms (page 21, lines 18-28) and scheduling information (page 24, lines 17-24). The process of reading the preference information is also commonly stated as parsing. Further, the process of converting raw data into segments is described in the specification on page 10, lines 8-10. Thus, the applicant submits that the Office Actions's objections should be removed.
